DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 8-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 8-9 recites the limitation "estimated microphones/the estimated microphones". There is insufficient antecedent basis for this limitation in the claim.

It is unclear how "a synchronous adder which ***pulls phases*** of the output signals of the microphones and the estimated microphones" as recited in claim 8.

Regarding claim 11, line 14, it is unclear what is being considered as "the output signals of ***the parts*** of the synchronous adder" as recited in the claim.

3. Claims 8-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: 2644

Sasaki, Sibbald et al, Matsuo (US-6600824, 6618485), and Rung are made of record here as pertinent art to the claimed invention. The cited references disclose various audio signals processing devices with microphone array.
